SUPPLEMENT TO THE "A" VOLUME OF THE MADURA DISTRICT GAZETTEER.

CHAPTER III.

Page 111.—Add at the end of the page :—"The Sourashtras have also started a separate club to provide them not only with recreation but also to give them scope for the cultivation of a healthy spirit of co-operation and union. In 1908 some rich and educated members of the community joined together and by raising subscriptions among themselves erected the present fine building which occupies a fine situation on the south-east corner of the Big Teppakulam commanding a beautiful view of the tank and the central island with its picturesque grove. The club is now in a very flourishing condition with a membership of 110 and has two billiard tables and two tennis courts and a reading room. The club is open however, to all communities alike irrespective of caste, creed or colour and there are a good number of non-sourashtra members."

Principal
castes.

CHAPTER IV.

Page 119.—Insert at the end of paragraph 1 :—"There is a noteworthy increase in the cultivation of cotton, the district total having risen from 6.6 in 1903-04 to 9.2 in 1912-13. The reason is certainly due to the introduction of the "Combodia" or American cotton. Combodia cotton was not introduced in the southern districts or at any rate it did not attain popularity among the people before the year 1903 or 1904. People saw that there was profit in the cultivation of this kind of cotton and they readily accepted it. The consequence is that its rapid extension in so short a period is very marked."

Cotton.

Page 125.—Insert before paragraph 7 :—"The Berijam project was completed at a cost of Rs. 1,18,000. The advantage gained by Periyakulam municipality from the supply of pure water from the Berijam project is referred to in the notes on chapter XIV.

Page 126.—Add at the end of paragraph 1.—"The Suruliar channels and the Tenkarai channels with the tanks supplied by them are now classed as Periyar works and included in the Periyar system"

Tanks and
channels.

Page 130.—Insert before paragraph 1.—"In 1910 the water-shed cutting was widened and deepened and the width of the cutting now ranges from 26 to 34 feet and the level of the highest point of its bed has been lowered from 115 to 110 feet,

Periyar
project.

making it possible to draw off 5 feet more water than before. The real difficulty for generating electricity is that in many years the supply is insufficient to permit of water being passed down all the year and unless a constant minimum supply can be guaranteed, works for the generation of power cannot be installed, the capital expenditure required being very great. To get over the difficulty, it is now proposed to form another reservoir in the Cardamom Hills, west of Uthamapalayam by damming up the Kallar river. The water from this reservoir would be diverted to the Suruliar river by a tunnel through the water-shed as was done in the case of the Periyar and would be used to supplement the water from the Periyar reservoir so that sufficient quantity could be reserved to permit of the minimum daily quantity required being passed out during the closure months. The project is now being investigated. The Kallar river and proposed reservoir is in Travancore territory."

Peranai regulator.

The shutter gearings of the Peranai regulator which were not working properly are now being completely replaced by gearings of a more modern type at a cost of Rs. 62,000.

Main canal.

The carrying capacity of the canal at its head is not 2,016 cusecs but about 1,450 cusecs.

Capital cost.

The capital cost of the system up to the end of 1913-14 was Rs. 1,05,70,165 and the total estimated capital cost is now reckoned to be Rs. 1,06,48,949.

Area commanded.

It is difficult to say what exactly is the cultivable area commanded as in theory the whole country to the Bay of Bengal is commanded if there were enough water. The area irrigable under the present system without any new channels or any extensions of channels is about 143,000 acres. This area includes all irrigable wastes and porambokes and does not include any area in Sivaganga zamindari though a certain area in that zamindari is now supplied in almost every year.

Single and double crop areas.

With the idea of economizing water the area under the main canal was divided into a single and double crop area in 1909 and from that year water has been supplied to the latter for two crops and to the former for only one crop. The double crop area comprises the first nine branch channels and its irrigable extent is 75,426 acres. The irrigable area in the single crop area is 55,323 acres. Proposals for reducing the double crop area by cutting out some of the outlying portions which are difficult to supply are now before Government.

Prospects of extension and of cultivation

The project has almost reached its limit and very little expansion in the area irrigated is possible with the present supply available. A certain amount of extension is possible in the double crop area largely by lands not yet reclaimed and which lie amongst the existing wet lands being reclaimed and brought under cultivation. The conversion of new lands to wet in the single crop area has been already forbidden.

Some of the difficulties enumerated have disappeared but some still remain. The supply of labour and cattle is still inadequate. Many of the ryots grow only one crop where two might be grown. This is in a measure due to the fact that much of the land is not fit for two crops every year though it might possibly be rendered fit if it were properly manured and more skilfully cultivated. It is also due to a certain extent to much of the land being owned by non-residents who purchased it either as a speculation or as an investment. Many of these owners are very ignorant of agriculture. They mostly live in Madura town but some of them live in other districts and as a rule they see their lands only very occasionally. They do their cultivation either by employing a few coolies, as few as possible, or by leasing the land on the share system to so-called tenants. Many of these tenants have lands of their own and these naturally receive their first attention. Some of the absentee owners have imported cultivators from other districts settling them in small hamlets on their lands. A great mistake was made in not confining the sales of Government waste lands to genuine resident ryots. Had this been done, the lands would be much better cultivated than they are now. Manure is still a difficulty but the ryots are now beginning to grow green manure on their fields after the crop is harvested and when this practice becomes general as it may, the manure difficulty should disappear. There are now plenty cross-roads and nothing more seems to be required than improvements to village cart tracks. No drains seem to be required and very little by way of extending or improving the existing irrigation channels. During the past five or six years the channels have been much improved especially the smaller branches and the improvements will continue till they are all in good order. The main canal and main branches are all in good order and practically all the sluices in the system are provided with shutters under lock and key.

The work of lowering the right bank escape by 8 feet and erecting across it a regulator with ten shutters each 36 feet long by 16 feet high was completed in 1907 and the full supply in the lake was then raised from level 146 to level 152 giving an increase of 2,361 millions of cubic feet in the storage capacity. The only proposal at present contemplated for increasing the water supply to the Periyar lake is to form another reservoir by damming the Pambayar, a river lying to the west of the Periyar in thick ever-green jungle. The catchment area has been surveyed and dam site tentatively selected. A gauging weir was erected across the river in 1910 and the river-flow and rainfall is regularly gauged throughout the year. The gaugings are to continue till 1917-18. The proposal is as yet very much a proposal. The idea is to direct the water from the proposed reservoir into the Periyar lake and to use the water from both reservoirs for irrigation in Madura. The project involves the

building of two dams and a great deal of tunnelling and probably the widening of the Periyar tunnel. It is likely to be very costly and it is doubtful if it will ever come to anything though the supply available is undoubtedly good."

Page 130.—Add at the end of paragraph 1:—"The appeal made to the High Court by Mr. Robert Fischer and others in the Peranai dam suit was dismissed and an appeal made to the Privy Council is now pending."

Page 131, line 7.—"The average area cultivated was in the quinquennium ending 1910-11, 29·6 per cent. larger and the assessment 36·8 per cent. than the corresponding figures of the quinquennium ending 1875-76."

Page 131.—Insert at the end as a fresh paragraph:—"A number of co-operative credit societies have come into existence since 1906-07. The number rose to 31 in 1910-11 and to 54 in 1912-13 besides eleven other societies that were formed after the close of that year. To quote the words of the Special Settlement officer from the draft scheme report 'The Co-operative movement has evidently taken strong root in this district.' In the Tirumangalam taluk attempt has been made to reclaim the criminal kallars by this means. As the movement gathers strength it is bound to do much to ameliorate the lot of the rural farmer. The kallar tracts in the north of Melur are still the most backward parts of the district. Wells have been sunk in the kallar villages of Tirumangalam but there is no great increase in the number of wells in Melur."

CHAPTER V.

Forests.

Pages 142-143.—Add the following:—"In 1911-12 the issue permits for the removal of leaf manure from reserved forests was discontinued.

Up to 1911-12 exploitation and disposal of fuel from Government reserves had been effected partly by Government Agency and partly by sale of standing growth to contractors. In accordance with the general policy of Government, departmental working was put a stop to in 1912-13, the Government fuel depot in Madura was closed on 31st March 1912, and all extraction and supply of fuel from reserved forests has since been effected by contract agency.

In 1912-13 the Board sanctioned the closure of all reserves to goat browsing on permit. At that date goats were admitted on payment of annas 8 per head to browse over 43,520, acres of reserved forest, in 1913-14 the area to which they were admitted was reduced to 21,120 acres and this area was also closed from 1st July 1914.

The working plans sanctioned for the Kanavaipatti and Palamedu forest ranges and for the Cumbam forest range and described in volume I have since undergone revision and modification. Modified plans were sanctioned for Kanavaipatti range in 1907, for Palamedu range and also for Cumbam range in 1912. A special working plans officer has recently been deputed to draw up fresh plans for these areas so that at the present moment it is impossible to outline the schemes."

CHAPTER VI.

Page 147.—*Add* at the end of paragraph 2 :—"The appliances now in use provide for weaving fine figures on borders of cloth. These are said to have been in existence for over ten years prior to the publication of the present volume of the Gazetteer."

Weaving
appliances.

Page 148.—*Insert* before paragraph 1 :—"There has been no change in the dyeing process except in the solution to be used in the second step. The roots of imburan which were hitherto largely used for giving thread a red colour have been abandoned and to make up for this, German alizarine dye which was hitherto added in a small quantity to the solution is now mixed up in a larger proportion. The change is said to be due to the greater expense and trouble involved in the use of these roots for they are costlier and have to be well grounded before they can be used. Moreover a finer and deeper shade of red colour can be obtained by using German alizarine dye than imburan roots. Kayava leaves continue to be used as before. It is said that the decrease in the import of alizarine owing to the "European wars" has been creating a necessity for the use of imburan roots."

Dyeing.

Page 148.—*Add* at the end of paragraph 1 :—"The manufacture of this article still continues in the same way but on a smaller scale than before by a very few Musalmans to supply a demand from other parts which is not so great as it was some ten years back."

Gold and
silver thread.

Page 149.—*Insert* at the end of paragraph 1 :—"Messrs. Harvey's steam mill near Madura Railway station consumes annually more cotton than before. More buildings have also sprung up and the business is now on a larger scale."

Cotton
spinning.

During the last ten years several rice mills have been established, the biggest of them being near the Madura Bridge Railway station. This is very useful to the public.

Page 150.—*Add* at the end of paragraph 2 :—"Groundnut oil is also consumed to a larger extent. In fact this is the chief oil used for the preparation of confectionery and the merchants gain a good deal in this trade."

Oils.

Wood
carving

Page 150.—Add at the end of paragraph 4:—"The Madura Technical Institute is now maintained by the Government and not by the District Board. Separate buildings are proposed to be constructed on the road to Tirupparankundrum. Fancy articles are also made very finely by skilled art workmen as well as in metal."

Export.

Page 151.—Insert at the end of paragraph 5:—"Groundnut is exported largely to Bombay and other parts from Madura."

Since 1907 the export of groundnut from the Madura and Melur taluks has become enormous. Both in the Periyar and non-Periyar tracts, this crop has taken the place of the ordinary cereals such as blackgram, dholl and horsegram, etc. This is exported to Madura town, where the oil is largely used for dyeing processes, to Bombay and even outside India.

There is a ginning factory at Tirumangalam owned by Messrs. Ralli Brothers on the eastern side of the Railway station. The season commences in February and closes by the end of August of each year. Cotton is being sent to this factory from all parts of this taluk and the Periyakulam taluk. Groundnuts are also purchased in this factory and exported to Bombay."

CHAPTER VII.

Means of Communication—Roads.

Insert the following to supplement the information already given in the chapter:—

Their
existing
condition.

Page 154, paragraph 2.—"Madura now possesses 935 $\frac{3}{4}$ miles of maintained roads of which 852 $\frac{1}{2}$ miles are gravelled and metalled. Except the road from Bodinayakkanur to Kottagudi which is in charge of the Public Works Department, these are kept up by the Local Boards."

The chief
routes.

Page 155, paragraph 2.—"The chief lines are: (a) from Trichinopoly district to Rāmnād frontier through Melur, Madura and Tirumangalam, (b) from Rāmnād district through Sathru-sangarakottai and Melur to Madura, (c) from Madura to Dindigul, *via* Ammayanayakkanur and thence through Palni to the Coimbatore frontier, (d) from Ammayanayakkanur through Batlagundu and Periyakulam to the head of the Cumbam valley and the Periyar lake (Travancore frontier) and (e) from Madura through Usilampatti and Theni to Bodinayakkanur and thence to Kottagudi, a village at the foot of the Travancore hills, from which a steep track leads to the top of that range."

The
Kottagudi
ropeway.

Page 155, paragraph 3.—"Out of the 22 miles of mono-rail tramway, one mile lies in British territory and the rest in Travancore territory. The District Board and Government have

since permitted the construction of the tramway as far as it lies in their jurisdiction."

Page 155, paragraph 4.—"In the year 1909, an estimate for Rs. 5,65,155 was sanctioned and the work was recommenced by the Public Works Department. The estimate was revised in 1912 and now stands at Rs. 7,01,590. The road has now been opened for traffic. The ruling gradient is 1 in 17 and suited to motor-cars. The road ends at Ganguvarpatti, a village at the foot of the hills, which is connected by a metalled road of $3\frac{1}{2}$ miles in length with the main road from Ammayanayakkanur to Periyakulam. The total distance from Kodaikanal to the main road is about 36 miles and the Kodaikanal Road Railway station is 17 miles from this point. Motor service is now available on the main road."

Law's ghat
road to
Kodaikanal.

Page 156, middle paragraph.—"The construction of this ghat road was begun by the Public Works Department. But owing to unforeseen difficulties met with during execution, this ghat road could not be completed and was abandoned after a good deal of money had been spent. At the request of the planters and with the approval of Government, the ghat road as far as formed is now being maintained by the District Board in passable order at an annual cost of Rs. 1,000 supplemented by an annual contribution of Rs. 800 from the planters."

The Attur
ghat road.

Page 157, paragraph 3.—"The construction of a bridge across the Shanmuga Nadhi at a cost of Rs. 1,00,300 is now sanctioned by Government and the work has been put on hand. Bridges.

The Kunnur Ferry worked till November 1914 across the Suruliya when a girder bridge of 4 spans of 66 feet each was completed by the Local Fund Department at a cost of Rs. 66,100 and opened for traffic.

The following bridges have also been built by the Local Fund Department and their cost was met equally from Provincial and Local Funds :—

(1) A stone arched bridge of 6 spans of 30 feet each across the Theniar river at Theni on the road from Periyakulam to Cumbam valley at a cost of Rs. 58,000,

(2) and another stone arched bridge of 3 spans of 25 feet each on the road from Dindigul to Palni across the Mangarai river at a cost of Rs. 24,000, and

(3) the construction of a bridge across the Varahanadhi river at Periyakulam at a cost of Rs. 84,000 is also sanctioned by Government and the work just begun."

Pages 158-159.—"A railway from Madura to Bodinayakkanur through Chekkanurani, Usilampatti, Theni and Andipatti is shortly to be constructed by the District Board. The line has been surveyed by the South Indian Railway Company and detailed estimates and plans have been prepared and submitted Railways.

for the sanction of the Board of Directors. The District Board have proposed to raise debenture loans to meet the cost of the construction of the railway and the orders of Government are being awaited."

CHAPTER VIII.

Page 166.—Add at the end of paragraph 3:—"In Tirumangalam taluk especially a large number of wells have been dug in various villages with the aid of state loans since 1905. The people cannot therefore be said to be now at the mercy of the seasons. Though the prices of food grains are dear, yet the coolies find labour and do not suffer.

In regard to Madura generally though there has been no famine in recent years yet the prices of food stuffs continue to be high."

Page 167.—Insert at the end of the page:—"There was a heavy flood in the Kodavanur river in January 1909."

CHAPTER IX.

Public health.

Fever.

Page 169.—Add the following at the end of paragraph 3:—"Enteric fever among Indians is distinctly common, especially in the large towns and more particularly in Madura city. It is known among Indians as three weeks' fever and finds a place in statistics usually under malarial fever.

Dengue and influenza have become common in epidemic form in recent years, Madura and Dindigul towns being the most severely attacked localities.

Tuberculosis.

This is met with principally in the form of Phthisis which seems to be rapidly on the increase more especially in Madura town which offers an extremely favourable nidus for the disease owing to acute congestion and over-crowding and very insanitary surroundings.

Parasite.

Anchylostomiasis or Hook-worm disease is common throughout the district and is the cause of a considerable amount of disability. Possibly it was introduced originally by coolies from Ceylon, but it is now present in endemic form. Guinea-worm disease is also common in several parts of the district, particularly in Nilakottai and Batlagundu.

Veneral diseases.

These are common to an appalling extent. The great endemic centres are the towns of Madura and Palni, where prostitutes abound, and practically none of whom escape these diseases. A

very large percentage of the patients admitted to the Madura Municipal Hospital are suffering from these diseases. Besides gonorrhœa and syphilis, infective granuloma is also common."

Pages 171-172.—Insert the following under several heads: Medical Institutions.
 "The medical institutions of the district comprise five Municipal, three Local Board, two Mission hospitals and three Municipal, fourteen Local Board and one Mission dispensaries. The Roman Catholic Mission maintains a hospital at Shembaganur.

"The hospital built in 1903 has now become too small to meet the demands made on it and as the present site does not admit of extension and the institution as a whole does not lend itself to improvements on modern lines a movement has been set on foot and is at present receiving the attention of Government for the provision of a new large General Hospital and a new Maternity Hospital built and equipped according to modern ideas. The Madura Hospital.

"This was completed in 1912 and the Chester Hospital and the women and children's dispensary are now located in buildings which have cost about Rs. 55,000 inclusive of price paid for site. Various improvements and additions are now under progress. The Dindigul Hospital.

"In Nilakottai taluk, a dispensary was opened at Alanganallur in April 1906. In Madura taluk a dispensary at Tirupparankundrum was opened on 1st August 1914. In Palni the dispensary at Chatrapatti has been removed to Keeranur on the 1st October 1913." Other institutions.

CHAPTER X.

Education.

Page 175.—Add at the end of paragraph 2:—"A fund is being raised to erect a building to house the sangam." Tamil Sangam.

Page 177.—Add at the end of the paragraph 1:—"In 1904, the College department was removed to Madura, and the High School there was put with the College under the management of the College Council. This school had been started in Madura as an Anglo-Vernacular school in 1864. American College.

"In 1905 a gift of money, nearly one lakh of rupees, was secured in America for a new site and buildings for the College. With this, nearly twenty acres of land was purchased in Tallakulam, north of the Vaigai river and a College Hall and a students' hostel were built.

"In 1911 funds were secured for a new Science Hall. In 1913 the College was affiliated as a First Grade College in Group II A—Physical science and Group V—History and Economics of the Madras University courses for the B A. degree examination."

Madura
College.

Page 177—*Add at the end of paragraph 2*:—"In the year 1910-11 a second storey was added at a cost of about Rs. 21,000 including a Government contribution of Rs. 6,700. Gas and water plant have been installed at a cost of about Rs. 5,000. The attendance in the College classes is about 250. The institution is now managed by a Committee of Indian gentlemen incorporated under section 26 of the Indian Companies Act under the name of "The Madura College Board." Attached to it are three Lower Secondary Branches located in rented buildings."

Higher
Elementary
schools for
girls having
standards
above the
fourth.

Page 178.—*Insert the following after paragraph 1*:—"There are seven complete elementary schools for girls in the district, namely, the Government Girls' Schools at Madura and Dindigul, managed by the Educational Department, the Model School attached to the Capron Hall Training School for Mistresses, Madura, the R.C. Danappamudaliar's Street Girls' School, the R.C. East Gate and the Swedish Lutheran Mission Girls' Boarding Schools in the Madura town and the R.C. Girls' School at Dindigul—all under Mission management."

"The Sree Meenakshi Vidya Sala in the Madura Municipality has sixth as its highest standard and is under non-mission management."

CHAPTER XI.

Page 207.—*Insert the following at the end of the page*:—"In July 1910 certain divisional changes were made. The existing divisional charges are as follows:—Dindigul, Kodaikanal, Palni and Nilakottai taluks are now under the Divisional Officer of Dindigul, Madura taluk, with the exception of twenty villages and Melur taluk are under the Melur Divisional Deputy Collector. Madura head-quarters and these twenty villages are under the Head-quarters Deputy Collector. Periyakulam and Tirumangalam taluks were reconstituted as Usilampatti division whose head-quarters is Usilampatti, a union village attached to the Tirumangalam taluk. Quite recently from 1st April 1915, five villages of the Sāttūr taluk in the Rāmnād district have been transferred to the Tirumangalam taluk and in their place ten villages of the Tirumangalam taluk have been transferred to Aruppukkōttai taluk in the Rāmnād district."

"The appointments of Additional District Magistrate and Special Deputy Collector have now ceased to exist."

“Revision survey and settlement are at present in progress in the district.”

Page 209.—*Add to the list on this page.*—

CHAPTER XII.

Page 212.—*Insert the following as the penultimate paragraph*—“Beer shops have been opened in Tirumangalam, Periyakulam, Bodinayakkanūr and Uttamapālaiyam.”

Page 213.—*Insert at the end of paragraph 2* :—“The incidence of income-tax has considerably increased owing to the assessment of the income from cardamom grown in the Travancore Hills brought into the Periyakulam taluk which borders on that territory.”

CHAPTER XIII.

Administration of Justice.

Page 215.—*Add at the end of paragraph 2* :—“(1) A separate District Court has been established for the Rāmnād district and the Court of the Additional Sessions Judge, Madura, was abolished in June 1910. Judicial Courts.

“(2) There is now only one Subordinate District Court, namely, that of Madura.

“(3) An additional permanent District Munsif's Court, namely, that of Melur has been established at Madura and there are two additional Temporary District Munsifs' Courts, sitting one at Madura and the other at Dindigul.”

Registration
Department.

Page 215.—*Substitute* the following for paragraph 5 :—“ The Registration of Assurances is effected in the usual manner. The District Registrar's office is located at Madura. The District Registrar is assisted by a joint Sub-Registrar working in his office. The former is in charge of the registration offices in the Rāmnād revenue district also but it is likely that a separate Registrar will be appointed for Rāmnād in the near future. There are 25 registration offices in Madura district and they include the Registrar's office, 4 sub-offices in Madura town and 20 other Sub offices. The latter are stationed at

Attur	Peraiyur.
Bodinayakkanur	Periyakulam.
Chattrapatti	Sindupatti.
Solavandan	Dindigul.
Kallikudi	Tamaraipatti.
Kodaikānal	Tirumangalam.
Melur	Usilampatti.
Natham	Uttamapalayam.
Nilakottai	Batlagundu.
Palni	Vedasandur.

“ The office at Uttamapalayam is worked by two Sub-Registrars.”

Criminal
Justice.

Page 215.—*Add* at the end of paragraph 6 :—“ A Special Magistrate exercises powers in Uttamapalayam also.”

Crime.

Page 215.—*Substitute* for the penultimate paragraph :—“ The district was bifurcated in June 1910, the district of Rāmnād being formed of the two Zamindaris of Rāmnād and Sivaganga of the old Madura district and the taluks of Sāttūr and Sivilliputtūr of the Tinnevely district. From tables showing the average number of grave crimes in the various districts of the Presidency during the years 1904-09 (before the bifurcation of Madura and Rāmnād) and 1910-12 (after the bifurcation) it appears that the district continues to be one of the most criminal in the Presidency. In respect of murder the district ranks next to Coimbatore and in respect of cattle-theft next but one to Coimbatore which heads all the districts in the Presidency.

“ Dacoities of travellers on the public roads are comparatively rare and special talayaris paid from Police funds patrol all the important roads in the district in conjunction with the regular police.”

Criminal
castes.

Page 216 —*Substitute* for the first sentence of paragraph 1 :—“ A very large proportion of the crime is committed by one caste, the kallars. These people are very clever at cattle-lifting and they use the several mountain passes in the district to carry

away their booty. These passes are being guarded by 'Ghat Talayaries' paid from Police funds. Steps are being taken to see if these people can be reclaimed and among the means employed may be mentioned the establishment of Co-operative Credit Societies and the introduction of the Criminal Tribes Act in some of the important kallar villages. By the introduction of this Act the kallars of the district would be brought under more strict surveillance and better control, than by casual checks by Police constables."

Page 217.—Add at the end of paragraph 4:—"The district is divided into circles each in charge of an Inspector who has about 6 stations to control and each station is in charge of officers called Sub-Inspectors. The old Police force has been reorganised after the recommendation of the Police Commission in 1902-03 and the strength of the force both morally and numerically has been considerably increased."

Present
Police
system.

23rd March 1914	Mr. J. G. Burn	"

District and
Sessions
Judges—
continued.

CHAPTER XIV.

Pages 220-221.—Insert the following:—"The four Taluk Boards are now those of Madura, Melur, Usilampatti and Dindigul. The last two Taluk Boards were constituted in 1910, Usilampatti comprising the revenue taluks of Periyakulam and Tirumangalam, Dindigul those of Dindigul, Palni, Nilakottai and the Deputy Tahsildar division of Kodaikanal.

The Local
Boards.

The number and names of the unions under the several Taluk Boards are now as follows:—Some transfers having taken place owing to the reconstitution of the Taluk Boards, under the Madura Taluk Board, Tirupparankundrum Union formed in 1911; under the Melur Taluk Board those at Melur and Natham; under the Usilampatti Taluk Board those at Tirumangalam, Usilampatti, Peraiyur, Melmangalam, Keelmangalam, Bodinayakkanur, Chinnamanur, Uthamapalayam, Cumbam, Gudalur; under the Dindigul Taluk Board, Nilakottai, Ayyampalayam, Batlagundu, Vadasandur, Ayakkudi, Neikarapatti, Solavandan and Kiranur formed in 1913.

The chief item of income in these unions is the house-tax but the maximum rate is only levied in nine of them, three-fourths maximum in six and half maximum in the remaining six. In

1913-14 the highest average assessment (Rs. 2-11-5) was in Tirupparankundrum under the Madura Taluk Board and the lowest in Neikarapatti annas 7 pies 5 under the Dindigul Taluk Board. Tolls are now levied at the maximum rate allowed by the Act with effect from April 1914.

As a consequence of the redistribution of the revenue taluks in the new Madura district in 1910 among the reconstituted divisions, alterations were naturally made in the electoral circles and in the number of members which each circle returns to the Taluk Board. The elective proportion of the Taluk Board was also enhanced in 1912 from one-third to one half."

Page 221.—Insert at the end of this page :—"Proposals have a second time been submitted recommending the constitution of Bodinayakanur into a municipality and orders from Government are awaited."

Madura
Municipality.

Page 224.—Insert at the end of paragraph 2 :—"The scheme before the Council in 1905 for cutting a trench some two miles up the river and laying in it an 18-inch stoneware pipe was not carried out. The additional supply of water during the dry season was obtained in the usual way by excavating a supply channel in the bed of the river higher up the filter bed. With the rapid growth of the town the supply of water became inadequate. Consequently in 1913, Government sanctioned an experimental additional water-supply scheme at a cost of 11 lakhs of rupees. Towards this expenditure Government made a free grant of half the sum and sanctioned a loan of the other half repayable in 30 annual instalments."

Drainage.

Page 225.—Add at the end of paragraph 1 :—"After considering various schemes, Government finally sanctioned a general underground drainage scheme at a cost of Rs. 22 lakhs. Towards this also Government made a free grant of half the sum and sanctioned the loan of the other half repayable in 30 annual instalments."

The accumulations of the reserve drainage and water-tax fund up to 1st April 1915 amount to Rs. 1,80,000. Both the works were put on hand during the latter half of 1913 and the execution of the work was placed in charge of a special Executive Engineer under the supervision of the Sanitary Superintending Engineer with the Government of Madras. The works are expected to be finished about 1920."

Dindigul
water-
supply.

Page 226.—Add at the end of paragraph 1 :—"The Government have sanctioned an estimate of Rs. 63,050 for extending the infiltration gallery and improving the water-supply. The first portion of the scheme is under progress, Government having undertaken to bear its cost amounting to Rs. 32,564."

Periyakulam
Municipality.

Page 227.—Insert before paragraph 1 :—"The suspension bridge was completed in 1908 and two separate bridges for the

Varahanadhi and Pambar rivers were sanctioned in 1914 and are now under construction.

Plans have been sanctioned by Government for the construction of a new hospital at a cost of Rs. 41,700 to be met entirely from Provincial funds. The work is to be started shortly and a site has been acquired at a cost of Rs. 11,040 and handed over to the municipality.

A scheme for a water-supply from the Berijam project was brought into effect in 1912 and is working well. Water from the Berijam reservoir in the hills is conveyed to the town by the Varahanadhi channel. About $2\frac{1}{2}$ miles west of the town a small dam is erected to force the water into an off-take and screening chamber, thence it is taken to four filter beds by a ten feet steel pipe and let into storage reservoirs which are two in number. The present distributive arrangement consists of two principal mains, 21 fountains and two hydrants and the whole scheme cost Rs. 1,92,670 of which one half was met by Government as a free gift. Forty-nine additional fountains have been sanctioned for erection in different parts of the town the existing number being insufficient. One half the cost is being met by loan from Government. The supply of pure drinking water has effected a great diminution in epidemic cholera in Periyakulam.

A preliminary investigation of a water-supply scheme for the villages of Gudalur, Cumbam, Uthamapalayam and Chinnamanur has been made. The cost of the scheme to supply these four towns with Periyar water is estimated at $6\frac{1}{4}$ lakhs of rupees with the annual working charges at Rs. 4,100. The source of supply is water from the Periyar tunnel. If the scheme be found financially practicable by the local board further investigation will be made. The water to be drawn off the Vairavanar river above Kuruvanuthu bridge will pass through roughing filters and be conveyed by about 20 miles of cast iron pipes to those villages."

Page 227.—*Add* at the end of the page :—"The water works scheme has since been carried through by the Public Works Department, Government meeting half the cost of the scheme. House connections are being made and public fountains have been erected and are in use throughout the Settlement. With regard to the Tinnevely Settlement the Council has resolved that when funds are available a pipe line will be run as far as the Parapur bridge. This is probably all that could be done without a large expenditure. Most of the land near Pillar Rocks road being either reserved forest or unsuitable for building purposes, the water-supply question for that part is not a pressing one."

Kodaikanal.

CHAPTER XV.

Insert the following to supplement the information given in the chapter :—

Dindigul
taluk.

Page 232, line 1.—“A new travellers' bungalow has been built east of the Railway station. The approximate cost is Rs. 7,500 and was divided equally between the Municipal Council and the District Board. A fine building has been recently constructed by Government as a training school for teachers. A girls' school is maintained by Government.”

Kodaikanal
taluk.

Page 253 (end).—“The question of the water-supply has been dealt with in the notes to Chapter XIV. After the model of the St. Andrews Colonial Homes at Kalinpong the St. Georges Homes at Kodaikanal have been started. The Homes are for the Eurasian children of South India and stand for a recognition of the needs of that part of the Indian population which has long been neglected. The large number of European and Eurasian children who were not attending the school and also of those whose present educational training would ever leave them sadly handicapped in life urgently demanded in South India an organization after the model of that at Kalinpong. A suggestion to this effect was made in 1910 and as a result of the efforts made by the projectors the Homes were able to start work in 1914.”

Madura

Page 259, paragraph 1.—“The European club removed from Sandaipettai to the race course in January 1909 occupied at first a thatched building which was afterwards retained as club property. The present fine terraced building was opened in October 1909. There are now three tennis courts and a billiard room. A system of electric lighting and electric fans was introduced in March 1915 and proposals have been approved by a general meeting for erecting a ladies' pavillion with dancing floor. The membership now stands at 103. There is also a golf course in the area comprised by the race course and a gymkhana club in connection with the European club. Opposite the club there is now the new Bank house while several other official residences have been built about the race course.

The Cosmopolitan club has also its club buildings on the race course. The main building is expected to be finished by July 1915, the foundation stone having been laid by the Hon'ble Mr. Butterworth, I.C.S. The games include tennis, billiards and the present strength of the club is 49 resident and 23 non-resident members.

Work on the Tankam has been completed and the new residential part is now inhabited.”

Melur taluk.

Page 288, paragraph 2.—“Six miles north of Melur on the way to Kottampatti there is an interesting fresh water spring

about a furlong east of the road. It issues from a rocky hill and the base of the hill has been encircled with a bund so that a considerable tank has been formed. A modern inscription on a stone post adjoining the road marks the position of the spring."

Page 292, paragraph 1.—"A forest road from Palamedu to Ramayampatti and a road from Mullipallam to Peranai were opened in 1912. The total population of the taluk is 199,262 (1911 census)."

Nilakottai taluk.

Ammayana-yakkanur.

Page 298, last paragraph.—"A Sub-Registrar's office was opened here in April 1914."

Batlag und u.

Page 303, line 9. - "Idayacottai has now been handed over to the Zamindar."

Palni taluk.

Page 303, paragraph 2.—"Kiranur was constituted a Union in 1913. The dispensary previously located at Chatrapatti was transferred to Kiranur in the same year. Recently the branch post office has been converted into a telegraph office."

Kiranur.

Page 308, paragraph 2.—"This estate was sold to Veerappa Chettiayar of Devakottai for Rs. 3,75,000 in December 1907 and the Ayyakkudi Zamin was redeemed. The estate is solely in the possession and management of the sale purchaser and yields an annual income of Rs. 45,000 of which Rs. 12,000 and odd is paid to Government on account of peishcush and Rs. 4,500 for land cess and railway cess."

Bettayamba li.

Page 312, end of paragraph 1.—"The ryots in Cumbam valley villages have lately acquired large extent of lands for cardamom cultivation in the adjoining Travancore hills. The estates export their produce in this taluk and draw most of their labour and supplies from here. The ryots owning such estates have grown richer. The income derived here from the cardamom estates is being assessed to income-tax from 1914. Consequently the amount of income-tax has considerably increased."

Periyakulam taluk.

Page 313, paragraph 1.—"At Theni where there is the biggest weekly market it is contemplated to open a flag station to the proposed Railway line."

Aliinagaram.

Page 313, paragraph 2.—"Here also it is contemplated to open a flag station."

Andipatti.

Page 313, last paragraph.—"It is the terminus of the proposed railway line. Kamulu Ammal continues to be the proprietrix of the estate."

Bodinayakanur.

Page 316, last paragraph.—"Akkulammal continues to be the proprietrix of the estate."

Eraakkana-yakkanur.

- Guntama-
nayakkanur. *Page 317, paragraph 1.*—"The Zamindar died and his widow Velathai Ammal succeeded. Towards the liquidation of the debts the zamin excluding the Vallanadhi sub-division has been sold by the Madura District Court in virtue of the decree in Original Suit 65 of 1897 on the file of the Tinnevely Sub-Court, E.P. 7 of 1913 on the file of the Madura District Court and purchased by Messrs. Rosher & Co. The estate is now under the management of the Court Receiver and it is likely to pass into the hands of the auction purchaser shortly."
- Kombai. *Page 319, last paragraph.*—"The well-known kombai dogs of good breed have become very rare as nobody takes interest in breeding them now."
- Periyakulam *Page 320, last paragraph.*—"The number of elective seats on the council was raised from 4 to 6 in 1908. A scheme for the diversion of the drainage of the town is under preparation. Lands have been acquired in Thengarai and Vadagarai for town extension providing for about 150 houses and this ought materially to benefit the sanitary condition of the town. The council has also undertaken the provision of houses for the scavengers employed by it. The new water-supply has been referred to in the notes on Chapter XIV."
- Tevaram *Page 321, paragraph 2.*—"Bangaru Ammal continues to hold the estate."
- Vadagarai. *Page 322, last paragraph.*—"On M.R.Ry. V. Ramabhadra Nayudu has been conferred the title of Diwan Bahadur. He is a Fellow of the Madras University. He is also the present Zamindar of Doddappanayakkanur. He continues to be the Chairman of the Periyakulam Municipal Council."
- Doddappa-
nayakkanur. *Page 326, paragraph 1.*—"Kadirayanswami Doddappanayakkar succeeded to the estate on the death of his father on the 15th November 1909. He was a minor under the guardianship of his mother when the first gazetteer was prepared. The zamin-dari was encumbered to a considerable extent and it was therefore brought to sale in the Sub-Court, Madura West and purchased by M.R.Ry. the Hon'ble Dewan Bahadur V. Ramabhadra Nayudu Garu Avargal of Vadagarai."
- Elumalai. *Page 326, paragraph 2.*—"Vadamalai Tiruvanada Muthu-swami Thevan succeeded to the estate on the death of his father on the 27th June 1911. He is a minor under the guardianship of the present Zamindar of Seithur."
- Jothilnayak-
kanur. *Page 326, paragraph 3.*—"The present proprietor Gurunatha Jothil Nayakkar, who was then a minor under the guardianship of his mother at the time of the publication of the last gazetteer, has now become a major."
- Peraiyur. *Page 328, paragraph 2.*—"Muthuvijaya Regunatha Kodimudi Thumbayaswami Thummichi Nayakkar succeeded to the estate on the death of his father on 22nd November 1909."

Page 329, paragraph 1.—“Kattari Nagaya Kamarajendra Ramaswami Kamaya Nayakkar succeeded to the estate on the death of his father on 8th December 1906. He is a minor under the guardianship of the Collector of Madura. The estate is under the management of the Court of Wards since 1906.” Saptur.

Page 329, last paragraph.—“*Tirumangalam.* The headquarters of the Tirumangalam District Munsif's Court were removed from Madura to Tirumangalam in 1909. The town has since risen in importance and is now in a flourishing condition. It is also the centre of cotton and groundnut trade in this taluk since a ginning factory has been opened quite close to the Railway station. This factory is owned by Messrs. Ralli Bros., and they export cotton and groundnut to Bombay on a large scale.” Tirumangalam taluk.

Page 330, paragraph 1.—“Muthuswami Uthappa Nayakkar succeeded to the estate on the death of his father on the 19th March 1913.” Uthappanayakkanur.

“It is situated on the eighth mile from Usilampatti in the Usilampatti-Tirumangalam road. A Sub-Registrar's office has been recently opened there from 1st April 1914. There is a Vishnu temple of some note in the village. There is a belief in those parts that people who are unable to proceed to Tirupathi can pay their vows in this shrine. A tasdik allowance of Rs. 775-5-6 is being paid to the temple annually as beriz deduction by Government. There is a flagstaff in the temple which is held in special veneration and it is resorted to for purposes of solemn affirmation when litigants in civil suits agree to have their disputes so settled.” Sindupatti.

Page 330, paragraph 1.—“Usilampatti once the abode of notorious cattle-lifters has now become a place of much importance since the location of the Deputy Collector's office there. There is at present under contemplation a proposal to open a District Board railway from Madura to Bodinayakanur through Usilampatti. In the event of this being accomplished, the place is likely to become a centre of trade in the taluk as one of the biggest markets in the district is located there.” Usilampatti.
